# We Are Exclusive Networks

**Exclusive Networks is a cybersecurity solutions provider, with profound expertise in product distribution, marketing, and solution sales.**

Our carefully selected security and networking technologies epitomize excellence, supported by a channel-centric approach dedicated to supporting your business. Whether your clientele is local or spans the global landscape, Exclusive Networks guarantees responsive and personalized service. Our commitment includes a devoted support team, a comprehensive range of professional services, and steadfast engineering and technical support. At Exclusive Networks, we consistently go above and beyond, ensuring you possess all the necessary tools to address your customers' diverse requirements, regardless of the inquiry, scale, or reach.

**Arqit** supplies a unique quantum safe encryption Platform-as-a-Service which makes the communications links or data at rest of any networked device or cloud machine secure against current and future forms of attack – even from a quantum computer.

**Docker** simplifies and accelerates your workflow, while giving developers the freedom to innovate with their choice of tools, application stacks, and deployment environments for each project.

**Fortinet's** mission is to deliver the most innovative, highest performing network security platform to secure and simplify your IT infrastructure. They are a leading global provider of network security appliances for carriers, data centers, enterprises and distributed offices. Fortinet's security fabric can intelligently protect your entire network; from the endpoint to the cloud and everywhere in between, delivering industry-leading, end-to-end simplified security that won't slow you down.

**Juniper Networks** is dedicated to dramatically simplifying network operations and driving superior experiences for end users. Our solutions deliver industry-leading insight, automation, security and AI to drive real business results. We believe that powering connections will bring us closer together while empowering us all to solve the world's greatest challenges of well-being, sustainability and equality.

**Nanitor** leverages cutting-edge technologies and continuously invests in research and development to stay at the forefront of the cybersecurity landscape. By harnessing the latest innovations, Nanitor offers clients state-of-the-art tools and solutions that provide superior protection against emerging threats.

**Nozomi Networks** is the leader in Industrial Control System (ICS) cybersecurity, with the most comprehensive platform to deliver real-time cyber security and operational visibility. Innovating the use of artificial intelligence to support over a quarter of a million devices, Nozomi Networks helps the largest industrial facilities around the world See and Secure™ their critical industrial control networks.

**Rackmount.IT** was founded to develop, produce, and market rack mount accessories. One of the only manufacturers of FortiRack, Rackmount.IT produces a variety of Fortinet rack-mount models. Rackmount.IT is currently developing new models with active components, the first being the FortiDIN. New developments also include smart appliances that convert network appliances into remotely managed products.

**RUCKUS** is a leading enterprise networking provider with an award-winning portfolio of access points, switches, cloud services, and joint offerings which allows partners to grow their business by providing customers with innovative, high-value solutions.

**SentinelOne's** cybersecurity solution encompasses AI-powered prevention, detection, response and hunting across endpoints, containers, cloud workloads, and IoT devices in a single autonomous platform.

**Thales** helps the most respected brands and largest organizations in the world protect and secure access to their most sensitive information and software wherever it is created, shared, or stored – from the cloud and data centers to devices and across networks.

**ThriveDX** is the global leader in cybersecurity education, and an expert in providing cybersecurity training to upskill and reskill lifelong learners. ThriveDX's award-winning solutions exist to bridge the skills gap and impact the talent shortage in the cybersecurity and overall tech industry. Their determined focus is in future-proofing the workforce with the most in-demand cyber skills.
